## **1 ARTICLE 1 – REFEREEING**

### **1.1 Authority of Referee**

**1.1.1** The referee is the highest authority in a match.

**1.1.2** The referee ruling on the result of each match is uncontestable.

**1.1.3** The ruling on the result of a match may only be changed under the following circumstances:

- If the score on the board has been misread;
- If the athlete declared winner submitted his/her opponent using an illegal hold previously unnoticed by the referee.
- If the athlete has been disqualified erroneously for using a legitimate hold. In this case, if the match was interrupted and the athlete disqualified prior to the athlete under attack tapping out, the match shall be restarted at the center of the match area and the attacking athlete shall be awarded two points. In the event that the athlete under attack should tap out prior to the interruption and disqualification, the athlete performing the hold shall be declared the winner.
- If the referee commits a ruling error in applying the rules set forth in this rule book. A ruling error does not encompass subjective interpretations the referee makes in awarding points, advantage points or penalties.

**1.1.4** To overturn the outcome of a match, the following conditions should be observed:

- The referee can consult the event's director of refereeing, but the final decision as to whether to overturn or not overturn a result is the referee's to make;
- The director of refereeing should consult the event's center table regarding how the bracket has progressed and may only authorize the overturning of a result if the bracket has not progressed to the next stage.

### **1.2 Refereeing Format**

**1.2.1** The organizers of the tournament may opt to appoint three referees for a single match whenever they deem it necessary.

- In this case, two corner referees shall be seated in chairs placed at opposing corners of the match area.
- The corner referees bear the same powers as the central referee – and all or any points, advantage points or penalty points awarded must be confirmed by at least two of the three referees.
- Should there be a consensus between the corner referees and the central referee, the corner referees shall remain seated in the chairs at the corners of the match area.
- Should there be a conflict of opinion with the central referee, the corner referees should stand up and signal for points, advantage points or penalty points to be awarded or subtracted, using gestures predefined in this rule book.
- Should there be a discrepancy between all three referees on points to be awarded for the same move, the intermediary decision shall count (e.g., when one referee awards a guard pass, the second awards an advantage point and the third asks that points be subtracted; the advantage point shall be recorded on the scoreboard).
- If the referee decides to disqualify an athlete due to the athlete's accumulation of four penalties (serious foul or lack of combativeness), the referee will make the serious penalty gesture before stopping the fight. If at least one of the side referees repeats the gesture, the referee's decision is confirmed and he or she is authorized to stop the fight.
- If the referee decides disqualify an athlete due to the athlete committing a severe foul, he will make the gesture before stopping the fight. If at least one of the side referees repeats the gesture, the referee's decision is confirmed and he or she is authorized to stop the fight.

- When a match ends with a draw in points, advantages and penalties, the central referee will place the two athletes in their starting position (one to his left and one to his right). The referee will take two steps back and make a gesture for the side referees to stand up. After the side referees are standing, the central referee will take a step forward with his right leg. After he or she does so, all three referees raise either their right or left arm in the air. This will signify the athlete each referee believes to be the winner. The central referee will then declare the winner chosen by a majority of the referees.

### **1.3 Referee Duties**

**1.3.1** It is the referee's duty to summon the athletes into the match area to initiate the match.

**1.3.2** It is the referee's duty to do a final check to be sure requirements – such as attire, hygiene, etc. – are being met. Should an athlete not meet any of the requirements, it is the referee's duty to determine whether the requirement can be met within a determined amount of time.

**1.3.3** It is the referee's duty to position the athletes in the match area prior to the match.

- Points awarded to the athlete on the referee's right shall be signaled using the referee's right arm, which is distinguished from the left arm by a green and yellow armband, indicating the points should be marked on the green and yellow section of the scoreboard.
- Points awarded the athlete on the referee's left shall be signaled using the referee's left arm, which does not bear an armband, and the points will be marked on the uncolored section of the scoreboard.

**1.3.4** It is the referee's duty to position the athletes according to the color of their gis.

- Should both athletes be wearing gi of the same color, the first athlete summoned shall be positioned on the referee's right and be provided a green and yellow belt for identification, to be worn in addition to the belt already fastened around his/her waist.
- If one athlete is wearing a white gi and the other is wearing a royal blue gi, the athlete in royal blue shall be positioned on the referee's right.
- If one athlete is wearing a black gi and the other athlete is wearing a royal blue gi, the athlete in royal blue shall be positioned on the referee's right.
- If one athlete is wearing a black gi and the other athlete is wearing a white gi, the athlete in black shall be positioned on the referee's right.

**1.3.5** It is the referee's duty to call a start to the match.

**1.3.6** It is the referee's duty to intervene in a match when he/she deems it necessary.

**Obs:** When the referee stops the fight for any reason, the athletes must maintain their current position to the best of their ability.

**1.3.7** It is the referee's duty to make sure the athletes fulfill their obligation to compete within the combat area.

- When 2/3 of the athletes' bodies are outside the combat area in a stabilized position on the ground, the referee should stop the match and, noting the position of each athlete, restart the match at the center of the match area with the athletes in positions identical to those they were in at the moment of stoppage.
- When 2/3 of the athletes' bodies are outside the combat area on foot or in a non-stabilized position on the ground, the referee should stop the match and restart the two athletes on their feet at the center of the match area.
- When an athlete has a submission hold in place in the outlying safety area, the referee should not interrupt the match.
- When an athlete has a submission hold in place and the opponent defends by moving to outside the outlying safety area, the referee should stop the match and restart the match at the center of the match area with the athletes standing. In this case, when the referee deems it clearly apparent the athlete under attack initiated the movement that led to exiting the match area, he/she shall signal for 2 (two) points to be added to the score of the athlete performing the submission hold, as described in item 3.1.1.

- When one athlete takes his opponent to the outlying safety area while trying to stabilize a scoring position, the referee shall wait, whenever possible, for an athlete to stabilize the position for 3 seconds before stopping the fight. If this happens, the referee will give the points and then restart the fight in the center of the combat area.

- Any movement that goes beyond the safety area should be stopped. The athletes will be returned to the center of the combat area in a standing position.

- When the fight exits the combat area due to the movement of an athlete attacking a submission in hold, the referee will not mark two points after stopping the fight. Instead, the referee may give an advantage depending on the proximity of the submission, while respecting the rules of advantages (Article 5th).

**1.3.8** It is the duty of referees overseeing under-12-years-old-division matches to protect the athlete's spinal column by positioning themselves behind the child when lifted off the ground by the opponent, as in the case of a triangle or closed guard.

**1.3.9** It is the referee's duty to signal every or any penalty, advantage or point scored by each athlete.

**1.3.10** It is up to the referee to punish and disqualify athletes.

- When the situation envisaged in item 6.4.22 arises and neither athlete has a submission in hold, the referee should stop the fight and replace the athletes in regular position. The referee will then restart the fight, punishing the infractor.

- When the situation envisaged in item 6.4.22 arises and one athlete has a submission in hold, the referee shall apply the penalty without stopping the fight.

- Whenever the situation depicted in picture 11 of item 6.3.2 arises, by attempt to takedown or any other move coming from the ground, with the athletes on they knees or with a sweep motion, the referee shall act in the following way:

For juveniles and younger divisions and white belts, the referee will stop the fight and restart the match with both athletes standing. No penalties will be given to either athlete.

For the other divisions the referee shall not interfere with the match.

**1.3.11** It is the referee's duty to summon medical staff to the match area.

**1.3.12** It is the referee's duty to call an end to the match upon reaching regulation time.

**1.3.13** It is the referee's duty to announce the result of the match.

**1.3.14** It is the referee's duty to raise the arm of the winner of the match and only that of the winner, even in the event of two athletes from the same academy coming to an agreement designating the match result.

## 2 RENDERING DECISIONS

### 2.1 Match decisions shall be issued in the following forms:

- Submission
- Stoppage
- Disqualification
- Loss of consciousness
- Score
- Referee decision
- Random pick

### 2.2 Submission

- 2.2.1 When an athlete taps twice with his/her hand on the opponent, ground, or his/herself in a clear and apparent manner.
- 2.2.2 When the athlete taps the ground twice with his/her foot, when arms are trapped by opponent.
- 2.2.3 When the athlete verbally withdraws, requesting the match be stopped.
- 2.2.4 When the athlete screams or emits noise expressing pain while trapped in a submission hold.

### 2.3 Stoppage

- 2.3.1 When one of the athletes alleges to be suffering from cramps, the opponent shall be declared winner of the match.
- 2.3.2 When the referee perceives that a hold in place may expose the athlete to serious physical injury.
- 2.3.3 When the doctor deems one of the athletes to be unable to continue a match due to injury rendered by the opponent using a legal hold.
- 2.3.4 When an athlete presents bleeding that cannot be contained after being treated by the doctor on 2 (two) occasions, to which each athlete has the right for each injury and should be provided upon the referee's request.
- 2.3.5 When an athlete vomits or loses control of basic bodily functions, with involuntary urination or bowel incontinence.

### 2.4 Disqualification

- 2.4.1 When one or both athletes commit a foul addressed in Article 6, the referee shall apply the penalties addressed in Article 7.

### 2.5 Loss of Consciousness

- 2.4.1 The athlete shall be declared to have lost the match upon losing consciousness due to a legal hold applied by the opponent or due to an accident not stemming from an illegal maneuver by the opponent.
- Note:** Athletes who lose consciousness because of head trauma should not be allowed to compete again in the same tournament and should be directed to undergo treatment from medical staff.

### 2.6 Scoring

- 2.6.1 The athlete with the most points shall be declared winner when the match has reached regulation time or in the event of the match being stopped due to both athletes suffering injuries.
- 2.6.2 The referee shall award athletes points according to positions achieved, as shown in the table below.

| 04 POINTS                           | 03 POINTS  | 02 POINTS                          |
|-------------------------------------|------------|------------------------------------|
| Mount<br>Back mount<br>Back control | Guard pass | Takedown<br>Sweep<br>Knee on belly |

- 2.6.3** Advantages: When there is a draw in the number of points, the athlete with the most advantage points shall be declared the winner.
- 2.6.4** Penalties: When there is a draw in the number of points and advantage points, the athlete with the least penalty points counted against him/her shall be declared the winner.

## **2.7 Referee Decisions**

- 2.7.1** If at the end of a match both athletes have the same number of points, advantage points and penalties, it is the duty of the referee or referees (when there are three referees overseeing a match) to declare a winner.
- 2.7.2** To determine the winner, the referee should take note of which athlete displayed greater offense during the match and came closest to achieving possible point- or submission-scoring positions.

## **2.8 Random Pick**

- 2.8.1** In the event of both athletes suffering accidental injury in a semifinal or final match where the score is tied at the moment of the accident and neither athlete is able to continue in the contest, the result shall be determined by random pick.

## **NOTES**

### **3 POINT SCORING**

**3.1** Points shall be awarded by the central referee of a match whenever an athlete stabilizes a position for 3 (three) seconds.

**3.1.1** When the proper defensive counter for a submission hold results in exiting the match area, the referee shall signal 2 (two) points be awarded to the athlete applying the submission hold (as addressed in item 1.3.7).

**3.2** Matches should unfold as a progression of positions of technical control that ultimately result in a submission hold. Therefore athletes who voluntarily relinquish a position, in order to again score points using the same position for which points have already been awarded, shall not be awarded points upon achieving the position anew.

**3.3** Athletes who arrive at a point-scoring position while caught in a submission hold shall only be awarded points once they have freed themselves from the attack and stabilized the position for 3 (three) seconds.

**3.3.1** When one athlete comes to point-scoring positions but only gets out of the submission in hold without staying in these positions, he/she will not receive any advantage for that positions.

**3.4** Athletes who, in defending a sweep, return their opponent back-down or sideways on the ground shall not be awarded the takedown-related two points or advantage point.

**3.5** Athletes defending standing back-control, where the opponent has one or two hooks in place and doesn't have one foot on the mat, shall not be awarded the takedown-related two points or advantage point, even after he/she stabilizes the position for 3 (three) seconds.

**3.6** Athletes who begin a takedown movement before the opponent pulls guard shall be awarded two points or an advantage point for the move, respecting the Takedown rules.

**3.7** When an athlete has a grip on his/her opponent's pants and the opponent pulls open guard, the athlete with the grip on the pants shall be awarded two points for the takedown if he/she stabilizes the top position on the ground for 3 (three) seconds.

**3.7.1** If the opponent pulls closed guard and remains suspended in the air, the athlete will have to put the opponent's back on the ground within 3 (three) seconds and stabilize the top position for 3 (three) seconds to be awarded with Takedown points.

**3.8** Athletes shall be awarded cumulative points when they progress through a number of point-scoring positions, as long as the three-second positional control from the final point-scoring position is a continuation of the positional control from the point-scoring positions from earlier in the sequence. In this case, the referee shall count only 3 (three) seconds of control at the end of the sequence before signaling the points be scored (e.g., guard pass followed by mount counts for 7 [seven] points).

**3.9** In the case of the mount, when there is a transition straight from back mount to mount or Vice-versa—for being distinct positions—athletes shall be awarded four points for the first mount and another four points for the subsequent mount, so long as the three-second stabilization period was achieved in each position.

#### **NOTES**

## 4 POINT-SCORING POSITIONS\*

### 4.1 Takedown (2 points)

- When an athlete forces his/her opponent back-down, sideways or into a seated position on the ground after standing on two feet at some point during the movement, and keeps the fight on the ground and himself/herself in the top position for 3 (three) seconds.

- When an athlete forces his/her opponent to the ground on all fours or belly-down, points shall only be awarded once the athlete performing the takedown has established a back clinch on his/her opponent—hooks need not be in place but at least one of the opponent's knees must be maintained on the ground for 3 (three) seconds.
- If an athlete forces his or her opponent to the ground in the outlying safety area, the athlete performing the takedown should have both feet within the match area when the movement begins. In this case, if the athletes land in a stabilized position, the referee will only stop the match after 3 seconds of stabilization in the position. Then the referee will score the points and restart the match at the center of the match area. The athletes will be placed in the same position they were in when the match was stopped.
- When the opponent has one or two knees on the ground, the athlete performing the takedown will only be awarded points if he/she is standing at the moment the takedown is carried out. An exception may be made under circumstances addressed in item 3.4 and respecting the 3 (three) seconds of stabilization.
- When the athlete forces his/her opponent to the ground using a single or double-leg takedown and the opponent lands seated and successfully applies a counter-takedown (another takedown), only the athlete performing the counter-takedown shall be awarded the two points when he/she can stabilize this position for 3 (three) seconds.
- For any takedown technique where the athlete, delivering his/her opponent back-down or sideways on the ground, lands in guard or half-guard and immediately suffers a successful sweep by the opponent, he/she shall be awarded an advantage relating to the takedown and his/her opponent shall be awarded the two points from the sweep.
- Athletes who initiate a takedown movement after the opponent has pulled guard shall not be awarded the two points or advantage point relating to the move.

#### 4.2 Guard Pass (3 points)

- When the athlete in top position manages to surmount the legs of the opponent in bottom position (pass guard or half-guard) and maintain side-control or north-south position over him/her for 3 (three) seconds.

SIDE-CONTROL

NORTH-SOUTH CONTROL

OPPONENT LYING ON HIS SIDE

**Note 1:** Guard is defined by the use of one or more legs to block the opponent from reaching side-control or north-south position over the athlete on bottom.

**Note 2:** Half-guard is the guard where the athlete on bottom is lying on his/her back or side and has one of the top-positioned athlete's legs trapped, blocking him/her from achieving side- or north-south control over the bottom-positioned athlete for 3 (three) seconds.

**Note 3:** The position of the top athlete's legs determines whether it is half-guard or reverse half-guard, according to the following examples:

**EXAMPLE 1:** In half-guard with his right leg trapped, his left leg is positioned alongside the right leg of the opponent playing guard.

**EXAMPLE 2:** In reverse half-guard with his right leg trapped, his left leg is positioned alongside the left leg of the athlete playing guard.

#### 4.3 Knee on Belly (2 points)

- When the athlete on top maintaining side-control places a knee on the belly, chest or ribs of his/her opponent – who is on bottom with their back or side on the ground –, maintaining his/her other leg extended diagonally away from the opponent and his/her foot (not knee) on the ground, body facing the opponent's head (not legs), and thus remains for 3 (three) seconds.

Points awarded

Advantage

No points awarded

#### 4.4 Mount and Back Mount (4 points)

- When the athlete is on top, clear of the half-guard, sitting on the opponent's torso and with two knees or one foot and one knee on the ground, facing the opponent's head and with up to one arm trapped under his/her leg – and thus remains for 3 (three) seconds.

##### Points awarded:

TYPICAL MOUNTED POSITION

MOUNTED POSITION WITHOUT THE FEET TOUCHING THE MATS OR GROUND

SIDEWAYS MOUNTED POSITION

MOUNTED POSITION OVER ONE ARM

BACK MOUNT

TECHNICAL MOUNTED POSITION

##### Advantage

MOUNTED POSITION OVER BOTH ARMS

BACKWARDS MOUNTED POSITION

##### No points awarded:

- Should the athlete have one of the opponent's arms trapped under his/her leg, he/she shall only be awarded points for the mount if the leg trapping the arm does not extend beyond the opponent's shoulder.
- When the athlete lands on top with a triangle fastened around the opponent on bottom, no points shall be awarded for the mount.

#### 4.5 Back Control (4 points)

- When the athlete takes control of the opponent's back, placing his/her heels between the opponent's thighs without crossing his/her legs and in a position to trap up to one of the opponent's arms without trapping the arm above the shoulder line – and thus remains for 3 (three) seconds.

##### Points awarded:

TYPICAL BACK CONTROL

BACK CONTROL WITH ONE ARM TRAPPED

##### Advantage

BACK CONTROL WITH LEGS IN FIGURE-FOUR TRIANGLE

BACK CONTROL WITH FEET CROSSED

BACK CONTROL WITH BOTH ARMS TRAPPED

#### 4.6 Sweep (2 points)

- When the athlete on bottom with the opponent in his/her guard or half-guard inverts the position, forcing the opponent who was on top to be on bottom – and maintains him/her in this position for 3 (three) seconds.

- When the athlete on bottom with the opponent in his/her guard or half-guard inverts the position and the opponent turns his/her back on all fours and the athlete who initiated the reversal establishes a back clinch over opponent's back – without needing to place hooks but maintaining the opponent with at least one knee on the ground for 3 (three) seconds.

- When the athlete on bottom with the opponent in his/her guard or half-guard gets to his/her feet, puts the opponent down and maintains the grips necessary to hold the opponent in bottom position for 3 (three) seconds.

*\* The examples above are merely illustrative and do not represent the full array of situations that may warrant points in each combat situation.*

#### NOTES

## **5 ARTICLE 5 – ADVANTAGES**

- 5.1** An advantage-point is counted when an athlete achieves a point-scoring pass position requiring 3 (three) seconds of control but is unable to maintain control for the entire duration.
- 5.2** An advantage is counted when the move to a point-scoring pass position is incomplete. The referee should assess whether the opponent was in any real danger and if the athlete clearly came close to reaching the point-scoring pass position.
- 5.3** The athlete shall be awarded an advantage-point when he/she attempts a submission hold where the opponent is in real danger of submitting. Again, it is the referee's duty to assess how close the submission hold came to fruition.

NOT AT REAL RISK

AT REAL RISK

- 5.4** An advantage point may be awarded by the referee even after a match has run its course but before announcing the result.
- 5.5** The referee may only award an advantage point once there is no longer a chance of the athlete reaching a point-scoring position.
- 5.6** An athlete who reaches one or multiple point-scoring positions, but is under attack from a submission hold by his/her opponent, shall be awarded with a single advantage point if he/she does not escape the attack by the end of the match.
- 5.7** Examples of Advantage Points\*

### **5.7.1** Advantage from takedown

- When an athlete achieves a takedown and his/her opponent lands back-down, sideways or in sitting position on the ground without stabilizing the position for 3 (three) seconds.
- When an athlete, in attempting a single-leg takedown, traps one of the opponent's legs and causes the opponent to exit the match area to avoid being taken down and oblige the referee to interrupt the match.

### **5.7.2** Advantage from Guard Pass

- When the athlete attempts to guard pass and makes his or her opponent turn their back upwards and get on all fours to prevent the guard pass
- When the athlete achieves half-guard position, with exception to reverse half-guard.

### 5.7.3 Advantage from knee on belly.

- When an athlete places a knee on his/her opponent's belly but only places the knee and not foot of his/her other leg on the ground.

### 5.7.4 Advantage from the Mount

- When the athlete on top and free of guard or half-guard tries to sit on the opponent's torso and keeps two knees or one foot and one knee on the ground while facing the opponent's head but with both the opponent's arms trapped under his/her legs.

### 5.7.5 Advantage from Back Control

- When an athlete mounts his/her opponent's back and places his/her heels between the opponent's thighs but traps both the opponent's arms.
- When an athlete mounts his/her opponent's back but crosses his/her legs, fastens a figure-four around the waist or only places one heel between the opponent's thighs.

### 5.7.6 Advantage from Sweep

- When, upon clearly causing the opponent to lose his/her balance, an athlete attempts to complete the sweep movement and forces the opponent out of the match area.
- When an athlete attempts a sweep from closed guard, takes down the opponent, and opens guard in an attempt to achieve top position but is unable to complete the sweep movement.
- In 50/50 guard, when attempting a sweep, the athlete takes the opponent down and unlocks his/her legs in an attempt to achieve top position but is unable to complete the sweep movement.
- When both athletes pull guard at the same time, the athlete who achieves top position first is awarded an advantage point.

**Obs:** In cases that the athlete achieves the top position by going straight to the side-mount, he will not receive points nor an advantage for the guard pass.

*\* The examples above are merely illustrative and do not represent the full array of situations that may warrant advantage points.*

## 5.8 Specific Cases where Advantage Points are not awarded anymore.

5.8.1 Achieving half-guard does not warrant an advantage point for an athlete who was in mounted or side-control position.

5.8.2 Athletes who suffer a takedown from the opponent and manage to roll to top position shall no longer be awarded an advantage point by the referee.

5.8.3 Athletes who begin a sweep movement but deliberately do not seek to complete the movement, in order to retain their defensive position, shall not be awarded an advantage point for the sweep.

## NOTES

## 6 ARTICLE 6 – FOULS

**6.1** Fouls are technical or disciplinary infractions addressed in the rules that are committed by athletes before, during or after a match.

### 6.2 Foul Classification

6.2.2 Serious Foul

6.2.3 Combativeness Foul (Stalling)

### 6.3 Severe Foul

- When an athlete intentionally attempts to get his or her opponent disqualified by reacting in a way that places his or her opponent in an illegal position.

## Technical Fouls – Illegal Moves

## Illegal Moves

### 20 Knee Ripping

Knee ripping is characterized by when one of the athletes places his thigh behind the leg of his opponent and passes his calf on top of the opponent's body above the knee, placing his foot beyond the vertical midline of the opponent's body and applying pressure on his opponents knee from the outside, true inside, while keeping the foot of the leg at risk stuck between his hip and armpit.

It is not necessary for one of the athletes to hold the foot of his opponent in order for the foot to be considered caught or stuck.

For purposes of this rule, when one athlete is standing and bearing their weight on foot of the same leg as the knee in danger, the foot will be considered caught or stuck.

#### Severe Foul

- When the athlete executes the movement in the characteristics mentioned above, with their foot crossing the vertical midline of the opponent's body.

- When either of the athletes have a submission hold, it will be considered a severe foul for the athlete crossing his foot in the characteristics mentioned above.

#### Serious Foul

- When the athlete executes the movement in the characteristics mentioned above, moving his foot across the vertical midline of the opponent's body. The referee shall stop the match, return the position if permitted and issue a penalty to the athletes before restarting the fight.

#### Normal Situations

Not considered fouls:

FREE FOOT

CROSSING UNDER THE KNEE

## 6.4 Serious Fouls

- 6.4.1 When an athlete kneels or sits without having a grip of any kind on the opponent.
- 6.4.2 When a standing athlete flees the bounds of the match area, avoiding combat with the opponent
- 6.4.3 When a standing athlete pushes his/her opponent to outside the match area without clear intent of attempting a submission or scoring.
- 6.4.4 When an athlete on the ground evades combat by sliding his/herself outside the match area.
- 6.4.5 When an athlete on the ground stands to escape combat and does not return to combat on the ground.
- 6.4.6 When an athlete breaks the grip of the opponent pulling guard and does not return to combat on the ground.
- 6.4.7 When an athlete intentionally removes his/her own gi or belt, causing the match to be stopped.
- 6.4.8 When an athlete grabs the opening of the opponent's sleeve or pant leg with the fingers placed inside the garment, even if performing a sweep or any other maneuver.
- 6.4.9 When an athlete grabs the inside of the opponent's gi top or pants, when he steps inside the Gi jacket and when an athlete passes a hand through the inside of the opponent's gi to grip the external part of the gi.
- 6.4.10 When an athlete communicates with the referee by speaking or with gestures, except when he/she is reporting a medical issue or a problem with his uniform.

## **6.5 Lack of Combativeness (stalling)**

- 6.5.1** Lack of combativeness (stalling) is defined by one athlete clearly not pursuing positional progression in a match and also when an athlete impedes his/her opponent from carrying out said progression.
- 6.5.2** When both athletes simultaneously demonstrate a lack of combativeness (stalling) in any position in a match.
- 6.5.3** When both athletes pull guard at the same time, the referee will start a 20 second countdown. If at end of this 20 second countdown, even if the athletes are moving, one of the athletes does not reach the top position, does not have a submission in hold, or is not imminently completing a point scoring move, the referee will stop the fight and give a penalty to both athletes. In this situation, the referee will restart the combat in standing position.
- 6.5.4** Lack of combativeness (stalling) is not declared when an athlete is defending his/herself from an opponent's attacks from mount, back-control, side-control or north-south positions.
- 6.5.5** Will not be considered lack of combativeness when an athlete is in mount or back position, as long as the characteristics of the technical position are respected.

### **Examples of situations constituting lack of combativeness (stalling).\***

- When an athlete, upon achieving side-control or north-south positions over an opponent, does not seek positional progression.
- When an athlete in an opponent's closed guard does not seek to pass guard and at the same time prevents the opponent from seeking positional progression from guard.
- When the bottom athlete playing closed guard wraps his/her arms around the opponent's back or performs any other controlling movement clutching the opponent to him/her without intending to achieve a submission or score.
- When an athlete on foot grabs and maintains his/her hand on the opponent's belt, preventing the opponent from completing a takedown movement and without attempting an attack of any kind.

*\*The aforementioned examples are merely illustrative and do not represent all the situations that may be deemed lack of combativeness (stalling).*

- 8.3.9** It is mandatory that athletes wear undergarments for all competitions, regardless if it is a Gi or No-Gi event. The undergarment should be "brief-type" only. Failure to adhere of this rule will be considered a foul according to item 6.3.2, and the athlete will be submitted to the penalties provided at item 7.2.1.

## 2 ARTICLE 2 – BRACKETS

- 2.1** The athletes in each division shall be sorted into brackets.
- 2.2** The brackets will serve as a simple elimination system, where the losing athlete from each match is eliminated and the winner goes through to the next stage of the brackets.
- 2.3** The only exception to the simple elimination system is when there is a bracket of three (only three athletes make up the bracket).

- 2.3.1** In a bracket of three, the winner of the first match goes through to the final and the losing athlete faces the third competitor in the bracket. The athlete who wins the second match – regardless of whether it is the same athlete to lose the first match – goes through to the final to face the winner of the first match.

- 2.3.2** In a 3-member-bracket, if the athlete exceeds the weight limit of the division, he/she will be eliminated from the competition and he/she will have no right to fight the other semi-final.
- 2.3.3** When an athlete in a 4 member bracket is disqualified, the bracket will not adopt the 3 member bracket method.
- 2.3.4** In a 3-member-bracket semi-final, if an athlete misses his/her first fight, he/she will have no right to fight the other semi-final.

## **2.4 Disqualification in semifinals and final**

### **2.4.1 Semifinals**

- When both athletes in a semifinal match are disqualified via technical penalty, the other semifinal shall count as the division final. In this case, the disqualified athletes shall be proclaimed the third-place athletes.
- When both athletes in a semifinal match are disqualified via disciplinary penalty, the other semifinal shall count as the division final. In this case, the disqualified athletes shall not be proclaimed the third-place athletes, thus leaving the post vacant.
- When all four athletes in both division semifinals are disqualified via technical penalty, the four athletes who lost to them in the quarterfinals shall compete against each other in extra semifinal matches to determine the divisional finalists. In this case, all four athletes disqualified in the semifinals shall be proclaimed third-place winners – and the athletes who lost the extra semifinals shall not receive medals.
- When all four athletes in both division semifinals are disqualified via disciplinary penalty, the four athletes who lost to them in the quarterfinals shall compete against each other in extra semifinal matches to determine the divisional finalists. In this case, the disqualified semifinalists shall not receive medals – and the athletes who lost the extra semifinals shall be proclaimed third-place winners.
- When an athlete in a semi-final is disqualified before participating in a match, the quarter-final on the same side of the bracket will become the semi-final match.
